

# SCUBBLEBUBBLES FOUNDATION

## Empowering Youth Through Ocean Conservation in Aruba

Since 2018, ScubbleBubbles Foundation has been a driving force in coral reef restoration and community engagement on Aruba. Led by passionate local youth and volunteers, our programs focus on reef recovery, dive education, and environmental action.

### By the Numbers

 Founded: 2018

 90+ long-term volunteers (excluding beach cleanups)

 50+ local students trained as PADI Open Water Scuba Divers

 20+ local dive professionals trained in coral restoration techniques

 21 coral nursery trees now growing 1500+ coral fragments of 6 species (up from 2 trees, 1 species in 2018)

 3000+ coral fragments outplanted onto Aruba's reefs

 1100+ m<sup>2</sup> of reef restored

 30+ beach cleanups, removing 100+ tonnes of debris

 50+ PADI Reef Rescue Divers trained (locals & tourists)

 100+ locals trained in coral restoration & microfragmentation (Nov 2024–Mar 2025)

Including 40 students (ages 10–17) and 15 tour operators

 3 interns (2023–2024): 2 local, 1 Canadian

### Why It Matters

Aruba's coral reefs are vital for marine biodiversity, coastal protection, and tourism. By training and engaging the public in coral restoration, ScubbleBubbles is creating a resilient ocean future — one coral at a time.
